CONDITIONS AND REGULATIONS

1. Standard wall, column and permanent building outlets are NOT considered part of a booth space and are not to be used by exhibitors unless approved by the "house electrician". Power to these outlets may be shut off during show hours.
2. Electrical services are to be ordered by each exhibitor separately and are not to be shared with any other exhibitors.
3. The charge for electrical service is based on the maximum wattage in use at the time of inspection. Booths may be inspected at any time during the show for compliance. If more power is being used than was paid for, power may be disconnected until arrangements are made.
4. Electrical rates quoted on this form include bringing of electrical service to the booth in the most convenient manner and do not include connecting equipment or any special wiring. Any additional work will be billed out on a time and materials basis and must be paid for before the work is performed.
5. Under NO circumstances shall anyone but the "house approved electrician" make any special or direct wiring electrical connections. ONLY the "house electrician" shall be allowed to disconnect such special connections at the end of the show.
6. Electrical services, ordered in advance, are guaranteed to be energized prior to the opening of the show. All others are taken on a "first come, first served" basis. Show power may be turned off at the end of the show each day. Exceptions must be arranged with MUTH ELECTRIC, INC. A reasonable effort will be made to accommodate exhibitors needing power in their space for "set up" purposes. Please notify MUTH ELECTRIC, INC. of any "set up power" needs as early as possible.
7. MUTH ELECTRIC, INC. will not give credit for electrical service ordered and not used unless we are notified, in writing, before the service is installed. There will be a \$ 30.00 service charge for returned payments.
8. MUTH ELECTRIC, INC. will not be responsible for floor coverings that need to be cut or altered in order to gain access to floor utility boxes. Obstructions blocking access to floor utility boxes are subject to relocation as necessary.
9. All equipment, regardless of source of power, must comply with all federal, state and local safety codes.
10. All equipment must be properly tagged with complete information on type of current, voltage, phase, cycle, horsepower, etc.
11. All material and equipment furnished by MUTH ELECTRIC, INC. for this service shall remain the property of MUTH ELECTRIC, INC. and shall be removed ONLY by MUTH ELECTRIC, INC. at the close of the show.
12. All exhibitor cords must be of a 3 wire grounded type. All wiring supplied by exhibitors must comply with federal, state and local guidelines. Failure to comply may result in power to your space being disconnected.
13. Any exhibitor requiring an independent or isolated ground electrical circuit will need to make arrangements in advance and will be subject to an additional charge for that type of circuit.
14. MUTH ELECTRIC, INC. is not responsible for voltage fluctuations, electrical "noise" or power failures because of temporary conditions.
15. Power requirements crossing aisles or walkways will not be allowed unless approved by show and building management.
16. CLAIMS or DISAGREEMENTS will not be considered unless filed, in writing, with MUTH ELECTRIC, INC. prior to the closing of the show.
